

Invitation Letter for Visiting Scholars Program at Beijing University of Chemical Technology (Beijing, China)

Dear Prof. Julia N.ZIYATDINOVA,

It's our great honor to invite you to visit Beijing University of Chemical Technology. This visit will provide an opportunity for you to make a better understanding of international education and exchanges.

Beijing University of Chemical Technology (BUCT) is one of the top state-owned universities, directly governed by the Ministry of Education. With the 60 years of development and cultivation with Science and engineering at the core, BUCT has become a multi-disciplinary university adding arts, laws, management, and economics to the core curriculum as well as the multi-layer personnel cultivation center homing local and international students of undergraduate, master, PhD programs.

Cooperation and exchange is the main ways in which all countries along the line jointly build an educational community of "Belt and Road". It is our common desire to cooperate and exchange education through it, cultivate high-quality talent, promote economic and social development, and enhance educational cooperation. It is our common responsibility to promote exchanges and cooperation in education, expand people-to-people exchanges and build a peaceful foundation for the region.

BUCT's international education enjoys a booming time of diversification and development of international programs. Hereby, we would like to invite your colleagues to be visiting scholars in short-term or long-term at BUCT. Detailed plan is followed:

1. The category and duration of enrollment

General advanced scholar (12 months in China),

Short-term visiting scholar (1-3 weeks in China).

2. Enrollment scale

4 general scholars and 20 short-term visiting scholars.

3. Enrolment country

Countries join to the " Belt and Road" Initiatives.

北京化工大学国际教育学院
